

MERN STACK

DAY – 3

Date: June 27, 2026

Marquee Tag

HTML <marquee> tag is used to create auto scrolling or moveable element within webpage. If we place any content inside this tag then that element will slide from right to left by default on it's own, but we can change the direction and axis through the attribute. This tag is now deprecated tag but supported by major browsers till now, we recommend you to use JavaScript and CSS to create this effect.

Attributes	Values	Description
width	pixels	Specifies the width of the marquee. This can be a value like 10 or 20% etc.
height	pixels	Specifies the height of the marquee. This can be a value like 10 or 20% etc.(Deprecated)
direction	up down left right	Specifies the direction in which marquee should scroll.(Deprecated)
behavior	scroll slide alternate	Specifies the type of scrolling of the marquee.(Deprecated)
scrolldelay	value	Specifies how long to delay between each jump.(Deprecated)
scrollamount	value	Specifies the speed of marquee element.(Deprecated)
loop	number	Specifies how many times to loop. The default value is INFINITE, which means that the marquee loops endlessly.(Deprecated)

bgcolor	color_name or color_code	Specifies background color in terms of color name or color hex value.(Deprecated)
hspace	pixels	Specifies horizontal space around the marquee.(Deprecated)
vspace	pixels	Specifies vertical space around the marquee.(Deprecated)

TASK-1: Marquee

HTML Forms

An HTML form is used to collect user input. The user input is most often sent to a server for processing.

The <form> Element

The HTML <form> element is used to create an HTML form for user input. The <form> element is a container for different types of input elements, such as: text fields, checkboxes, radio buttons, submit buttons, etc.

The <input> Element

The HTML <input> element is the most used form element. An <input> element can be displayed in many ways, depending on the type attribute.

Type	Description
------	-------------

<code><input type="text"></code>	Displays a single-line text input field
<code><input type="radio"></code>	Displays a radio button (for selecting one of many choices)
<code><input type="checkbox"></code>	Displays a checkbox (for selecting zero or more of many choices)
<code><input type="submit"></code>	Displays a submit button (for submitting the form)
<code><input type="button"></code>	Displays a clickable button

The `<label>` Element: The `<label>` tag defines a label for many form elements. The `<label>` element is useful for screen-reader users, because the screen-reader will read out loud the label when the user focuses on the input element. The `<label>` element also helps users who have difficulty clicking on very small regions (such as radio buttons or checkboxes) - because when the user clicks the text within the `<label>` element, it toggles the radio button/checkbox. The `for` attribute of the `<label>` tag should be equal to the `id` attribute of the `<input>` element to bind them together.

The `<select>` Element: The `<select>` element defines a drop-down list. The `<option>` element defines an option that can be selected. By default, the first item in the drop-down list is selected.

The `<textarea>` Element: The `<textarea>` element defines a multi-line input field (a text area). The `rows` attribute specifies the visible number of lines in a text area. The `cols` attribute specifies the visible width of a text area.

HTML Input Types

Here are the different input types you can use in HTML:

- `<input type="button">`
- `<input type="checkbox">`
- `<input type="color">`
- `<input type="date">`
- `<input type="datetime-local">`
- `<input type="email">`
- `<input type="file">`
- `<input type="hidden">`
- `<input type="image">`
- `<input type="month">`
- `<input type="number">`

- `<input type="password">`
- `<input type="radio">`
- `<input type="range">`
- `<input type="reset">`
- `<input type="search">`
- `<input type="submit">`
- `<input type="tel">`
- `<input type="text">`
- `<input type="time">`
- `<input type="url">`
- `<input type="week">`

TASK-2: Form

Name: ☐ ☐ Male

☐ Female No file chosen
